Objectives

Full Stack Developer with 2.5 years of expertise in frontend (JavaScript, TypeScript, Angular, React) and backend (Node.js, Express.js, MongoDB, MySQL) technologies. Committed to creating efficient, scalable, and user-friendly web applications. Seeking opportunities to contribute technical skills and innovation to a dynamic development team.

Experience

Skills outsource think pvt ltd, *Software Engineer* | Bengalore, KA   *Jan 2023 - Present*
- In-depth knowledge of **JavaScript, CSS, HTML**, and **front-end** languages.
- Knowledge of **React** frameworks including **NextJS,Webpack, Axios, Redux**, prettier, eslint.
- Integrating with various **APIs (Application Programming Interfaces)** to fetch and display data from external sources.
- Worked in **backend** development with a focus on **Node.js**, specializing in creating robust APIs and performing data manipulation from **databases**.
- Successfully designed and implemented **scalable** solutions, ensuring efficient **data** retrieval and manipulation for optimal application **performance**.

Infognana solutions *Full Stack Developer* | Coimbatore, TN   *Nov 2021 – Dec 2022*
- Collaborate with a team of four other developers to **design, develop**, and **maintain** web applications using ReactJS, Node JS and Express JS, mongoDB, postgreSQL.
- Write **clean, efficient**, and well-documented code while adhering to **coding** standards.
- Participate in **technical** discussions and provide valuable insights into the technical feasibility of project requirements.
- Select appropriate **technologies and tools** based on project needs to ensure optimal **performance and scalability**.

Skills

Programming	HTML, CSS/SCSS, JavaScript, Typescript,SQL
Tech stack	React, Angular,Nextjs,Node.js, Expressjs, Nestjs,Material-UI, Bootstrap, MongoDB, mySQL, postgreSQL
Developer Tools	Git, Postman, Jira, Gitlab, Firebase, Visual Studio Code
Soft Skills	Time Management, Problem-solving, Documentation, Engaging Presentation, Leadership, On-site coordination.

Education

8.9/10   **BSc Nautical Science**, *Vels Institute of Science, Technology & Advanced Studies* | Chennai, India   *2016-19*

Projects

Believe Backstage   *Mar 2024 - Present*
(Angular, React, Typescript, Nestjs, PostgreSQL, Redux)
- Optimized database queries, reducing average response time by **30%** and improving application performance for **50,000+** users.
- Designed and implemented a **full-stack** application using a **hexagonal** architecture pattern and **microservices**.
- Utilized **Redux** for state management, ensuring predictable and centralized **data** flow throughout the application.

Ownership fyi   *Oct 2023 - Feb 2024*
(React, React Native,Typescript, Nestjs,PostgreSQL)
- Designed and implemented a full-stack web application using **NestJS** and **TypeScript**, serving a REST **API** with **React** for the **frontend**.
- Created a mobile application using **React Native** for both user and business partner use.
- Implemented performance optimizations that reduced **server** response time by **40%**, enhancing user experience and engagement..

Eurecab   *May 2023 – Sep 2023*
(React Native, Javascript, Redux, Firebase, Git, Postman)
- Developed a French-based cab service platform that comprises two apps: one for **customers(Eurecab-Votre VTC Responsable)** and another for **drivers(Eurecab Chauffeur Privé VTC)**.
- Led the development of a mobile application that achieved over **50,000** downloads and maintained a stellar **four-star** rating.
- implemented **Redux** state management to efficiently manage application-wide state, resulting in predictable and centralized **data flow**.

Haiku   *Jan 2023 – Apr 2023*
(Angular, Typescript, CoreUI, RxJS and NgRx, Scss, Git, Jira)
- Developed and enhanced a dynamic social media marketing platform using Angular technology, specializing in targeted advertisement campaigns across major channels (Facebook, Instagram, TikTok, Waze, etc.), providing users with an intuitive interface to seamlessly create and manage advertising campaigns.

Eassycart   *Dec 2021 – Nov 2022*
(React, Javascript, Nodejs, ExpressJS, postgreSQL, mongoDB ,Git)
- **Optimized** web app loading time by **20%**, resulting in improved user experience and engagement.
- Implemented **Redux** state management to efficiently manage application-wide state, resulting in a **30%** reduction in data access latency and enhanced scalability. .
- Worked on the **backend** of this project, creating **APIs** and establishing **database** connections for data manipulations.
